CLARIFICATION NO. 1, answers to questions received on 24 March 2023

No	Question	Answer
1.	<p>In the tender document, it is not mentioned that the Contractor have to provide installation and training services for 1-3 and 5-7 LOTS.</p> <p>While in Section IV – Bidding Forms, the "Price and Completion Schedule - Related Services" do not indicate that it is "Not Applicable".</p> <p>Usually this form is used to indicate the price for installation and training. Please clarify the situation with the form.</p>	<p>In Section VII – Schedule of Requirements of the Bidding document, it is provided the List of Related Services and Completion Schedule, where it is clearly mentioned that for Lots 1-7 the Contractor should provide the services of “Assembling at the Final Destination Points” within 1 week after Delivery and Inspection. The Bidder should submit the form "Price and Completion Schedule - Related Services" indicating the proposed price for the above-mentioned services.</p>
2.	<p>In Section VII – Schedule of Requirements (page 108) in the form "List of Related Services and Completion Schedule – Lot 1-7" in the column "Description of Service" it is written "Assembling at the Final Destination Points" and immediately in the next column it is mentioned "N/A". Please clarify if this form must be presented in the proposal package.</p>	<p>Yes, the services of "Assembling at the Final Destination Points" are required for all lots and accordingly the forms should be submitted for all lots. The marking N/A is related to the “Quantity” field since the services of Assembling are not measurable and it is not reasonable to identify the quantity or physical unit for services. Services are required for all items of all lots.</p>
