

Invitation for Bids

Procurement of Works for Lot 5 Water Supply Systems:

Lot 5A: Metsamor town and Arevashat, Arshaluys, Hovtamej, Mousaler and Voskehat (optional settlements)

[21.04.2026]

ICB No. 513887

This Works Contract(s) will be financed in the frame of a joint program of the Republic of Armenia Government, the German Government through KfW and the European Investment Bank (EIB). KfW is the leading financing agency, and the bidding process will be governed by the KfW Guidelines for Procurement of Goods, Works and associated Services in Financial Cooperation with Partner Countries (Document version January 2019, 3rd update from July 2024).

The Project Executing Agency (PEA) of the Communal Infrastructure Program (CIP) II, Phase 3 – Republic of Armenia is the Armenian Territorial Development Fund (ATDF). The PEA has received financing from KfW and EIB toward the Procurement of Works for Water Supply Network, and intends to apply part of the proceeds toward payments under the Works Contract(s) for Procurement of Works within Lots 5A and 5B.

ATDF now invites Bidders for Lot 5A to submit their Bid.

Project Description

The population at the planning horizon in the villages is estimated as:

| | Settlement | Marz | No. Inhabitants 2045 |
|----|------------------------|---------|----------------------|
| 1. | Arevashat / Echmiadzin | Armavir | 2,159 |
| 2. | Arshaluys | Armavir | 4,409 |
| 3. | Hovtamej | Armavir | 1,643 |
| 4. | Metsamor city | Armavir | 9,672 |
| 5. | Musaler | Armavir | 3,620 |
| 6. | Voskehat (Optional) | Armavir | 4,044 |

The scope of works comprises fully or partial construction or rehabilitation of the water supply systems of the above villages, including the following:

- Small scale pumping stations;
- Water distribution networks;
- Water house connections;
- Installation of bulk and domestic water meters.

The works shall primarily replace the functionality of old and decrepit existing installations. Implementation of the entire works shall improve water supply for the population of the villages.

It is possible that there will be certain changes in the scope of work (e.g. works on additional transmission mains, installation of booster pump stations, removal of a village, etc.). Any changes in the scope will be introduced via variations to the Works Contract.

The designs for Lot5B villages are under preparation. The corresponding Works may be tendered for the qualified Bidders or added to the Works Contract via variations.

Interested eligible Bidders may obtain further information from PEA:
